Policy Report: PWD 21-09
2020 City Hall Parapet/Building Repair Project
Project 2018-881

Subsequent to the work prepared by Strata Architects, the City included an annual allocation for repairs to the exterior of City Hall. Currently there is an unused balance from previous years of \$199,784. During the CIP process in 2021, there was no allocation made for the City Hall Exterior project, however, the difference between the bid of \$249,521 and the project balance of \$199,784 can be paid from the remaining balance of 2020 CIP.

Staff recommends approving the contract with Mid-Continental Restoration Co., Inc. in an amount not to exceed \$249,521.
