**Policy Report: PD #12-2021**  
**Purchase of Police Radios**

This project is to replace the police hand held radios. The current provider will no longer support the radios the City's police officers use. K.S.A. 12-2901 and the City's purchasing policy allows for cooperative purchasing which reduces administrative costs, duplication of effort, and lowering prices.

Staff recommends approving the purchase of radios from Motorola Solutions, Inc. in an amount not to exceed \$201,237. Funding is available in the Special Projects fund.
